Of course you want your students to succeed at Houston Community College and one way to ensure success is to visit the HCC libraries.

Hello, my name is Erica Hubbard and I am a librarian at the HCC Central Campus library. On behalf of all of the HCC library faculty and staff, I’d like to welcome you to our beautiful libraries and electronic resource centers.

HCC libraries are an important resource for your students. They can find books, media, and even some of your textbooks there. There are computers available and even netbooks and tablets for checkout. Most importantly, there are librarians who can help the students find just the right materials for your assigned task and help cite references and format assignments properly.

If your students are not on campus, there are millions of resources available 24/7 via home pc, laptop or even by phone...all searchable from the HCC library home page.

Some of our librarians can help you online too. Just look for Ask a Librarian link or chat windows. Be sure to check out our faculty success pages for the resources and services we provide just for you and stop in for a consultation anytime.

Whether you visit us online or in person, you’ll have access to the resources and assistance you need to kick your teaching up a notch. The HCC libraries are the secret to your students’ and to your success.
